

„Overview of food safety and food quality research in EU“

Croatian Food Agency
Darja Sokolić, PhD
director

EU food safety surveys 2010-2019

DOMAINS

Biological Hazards; Chemical Hazards; Nutrition; GMO; Animal Health And Welfare; Feed; Other

EU Menu 2011-2018

Food consumption surveys – essential for exposure assessment

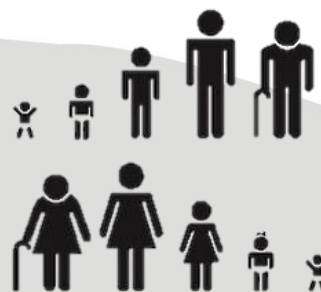

Lot 1:

- Infants (3-12 months)
- Toddlers (1-3 years)
- Other children (3-9 years)

Lot 2:

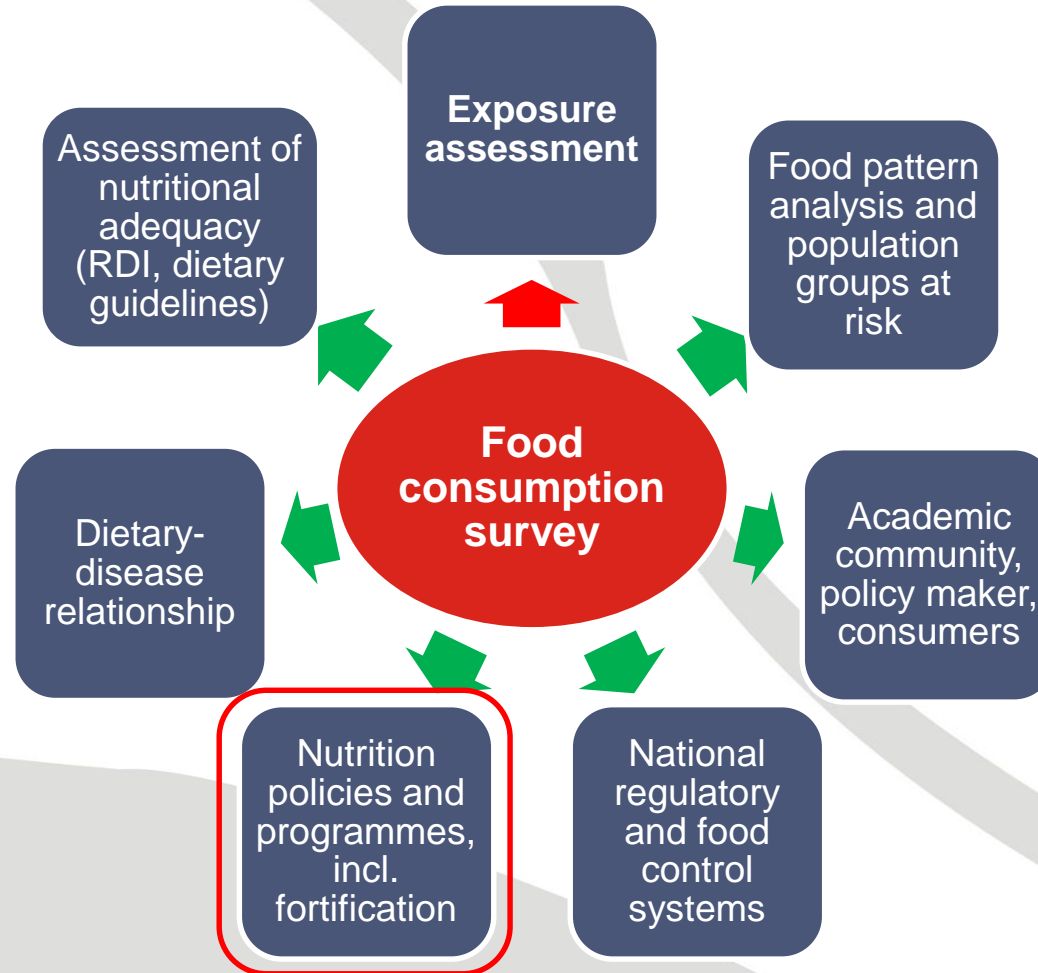

- Adolescents (10-18 years)
- Adults (18-64 years)
- Elderly (64-74 years)

Project started in	Dietary survey on	
	Children	Adults
2011	France	France
	Estonia	
2012	Latvia	Latvia
	Netherlands	Netherlands
	Portugal	Portugal
	Spain	Estonia
2013	Belgium	Belgium
	Cyprus	Cyprus
		Greece
		Spain
2014	Hungary	Hungary
	Italy	Italy
	Slovenia	Slovenia
	Greece	Austria
2015		Romania
		Finland
2016	Poland	Poland
	Croatia	
	Serbia	Serbia
	FYROM	Montenegro
		Bosnia & Herzegovina
Number of dietary surveys	16	19

Science meets public needs

The growth of digital technology – more efficient access to data and information.
The open data movement – potential for reuse of data.

Multi actor approach

National Council for Sustainable Development

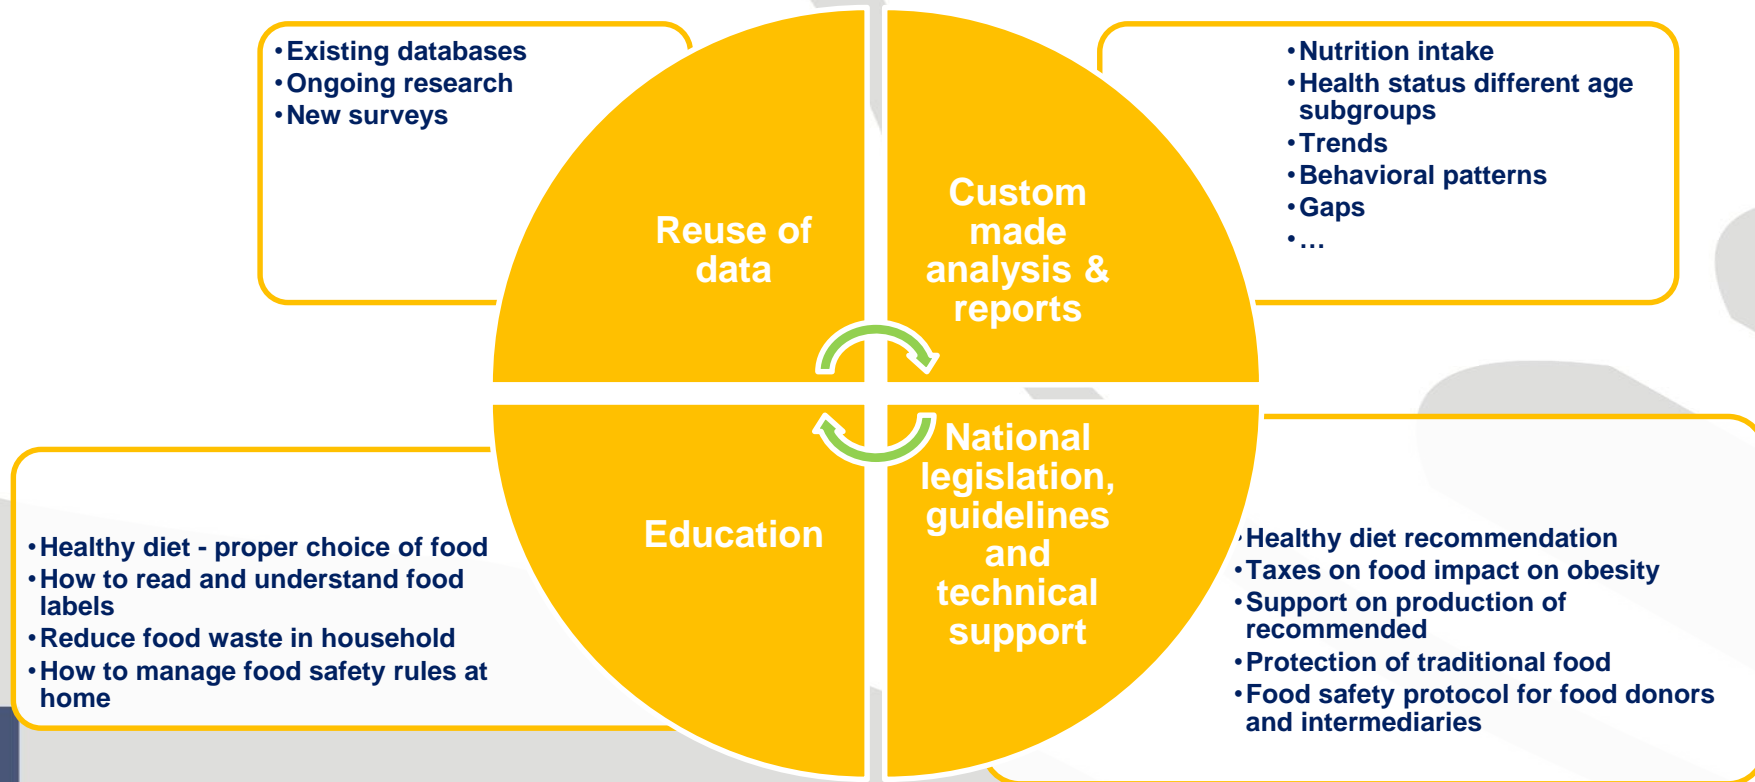

Objective 1 To eradicate poverty everywhere and in all its forms

Objective 2 To eradicate hunger, provide sufficient food and nutrition and promote sustainable agriculture

Objective 3 Ensure a healthy life and promote the well-being of all people of all age groups

Official gazette No 7/18

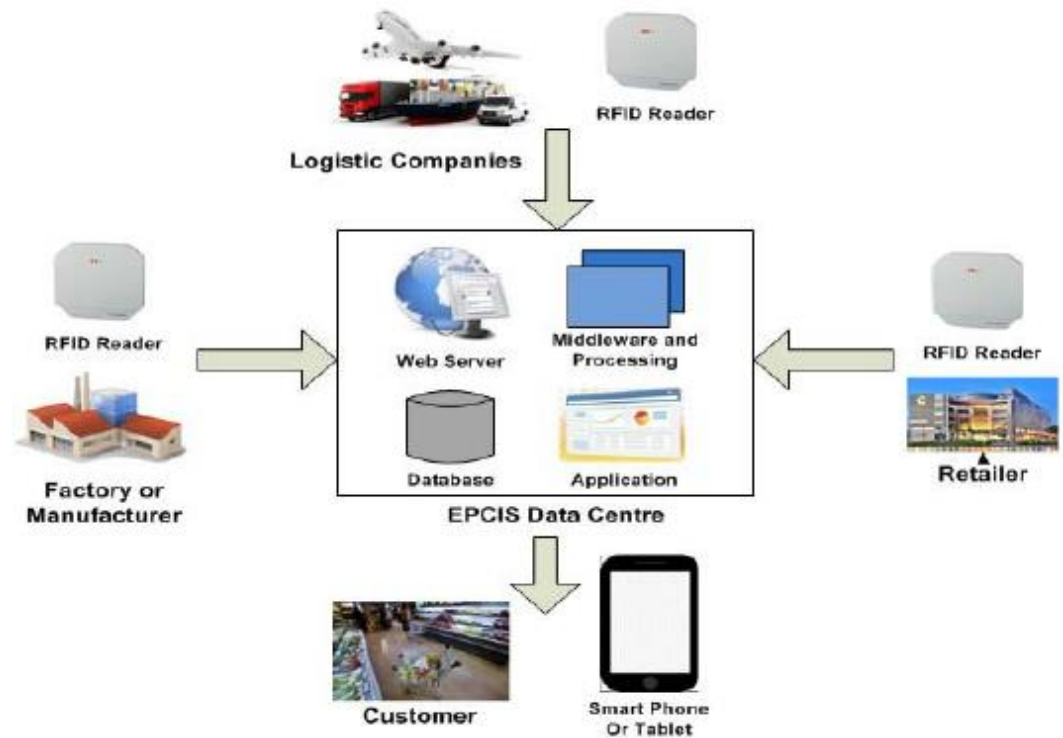

How can research of food safety and food quality meet these objectives?

TRENDS

New technologies

- Traceability – consumers confidence

Today we live in a world in which
values are becoming more
influential than **facts** in shaping public
opinion and science is increasingly
mistrusted.

Science, Food, Society

„Collaborate, collaborate, collaborate, because it is not enough to have good science!”

Bernhard Url, EFSA's Executive Director,
EFSA Conference 2018
